

## BARRE DAILY TIMES

Subscriptions: One year, \$3; one month, 25 cts.; single copy, 1 cent.

Members of the Publishers' Press.—The latest telegraphic news from all parts of the world are received by the Daily Times up to the hour of going to press.

Frank E. Langley, Publisher.

Published Every Weekday Afternoon.

Entered at the postoffice at Barre as second class matter.

THURSDAY, NOVEMBER 19, 1903.

The average daily circulation of the Barre Daily Times for the week ending Saturday was

**2,900**

copies, the largest paid circulation of any daily paper in this section.

## "Times, of Course"

That's what all the newsboys say when asked which Barre paper sells the best. There is no doubt about it.

Chicago ought to be gratified as she is not asking for much, with requests that both national party conventions be held there.

A Boston and Maine railroad division from Bradford to this city is a new proposition for Barre people, but it commends itself at once.

We agree with Alderman Burke that a \$550 span of horses is too big an outlay for the Barre Fire Department at the present time. One at less cost would do.

It is a relief to have a member of the Panama commission to this country say that there was no understanding between the insurgents in Panama and the United States. There was such a dissatisfying suspicion.

The citizens of Bristol have shown a get-together spirit that is commendable and ought to result in a great impetus to the town. They have combined their efforts and subscribed the capital stock for a manufacturing plant which was burned out recently.

The Lyndonville Journal well says: "Every person of good moral character who is able and willing to work is a desirable addition to any town. They should be welcomed with open-armed hospitality, and not with unfounded suspicion. Prosperity is like the coy maiden; it can be wooed and won by a kindly and generous spirit, and can also be repelled by selfishness and overreaching."

The ladies of the Lyndonville Village Improvement society made \$210 by last week's minstrel show. Where's the town where the men can do better?—St. Johnsbury Republican.

To admit the truth, the "ladies" always do have the advantage over "mere men" when it comes to a question of village improvement benefits. The ladies of Lyndonville are just keeping pace with their sisters.

A correspondent writing to the Burlington Free Press, signing himself "Vermont," asks the question "Why not try to induce capital to invest in some of our large granite and marble industries as well as many other profitable features in which our state abounds?" How can this be better or more cheaply brought before the public than by a state exhibit at this (St. Louis) world's fair. I trust that you will follow this up in such a way that Vermonters will make some effort to promote the state's industries and natural resources."

**More St. Louis Politicians Sentenced.**  
St. Louis, Nov. 19.—Judge Adams in the United States district court sentenced John P. Dolan, chairman of the Democratic city central committee, and Policeman Frank Garrett, convicted of participating in naturalization frauds, to five years' imprisonment in the penitentiary and each to pay a fine of \$1,000. District Attorney Dyer asked that the passing of sentence on Thomas E. Barrett, former marshal of the St. Louis circuit court of appeals, convicted on the same charges, be deferred until after his trial on other indictments for similar crimes.

**Nellie McHenry Badly Burned.**  
Omaha, Neb., Nov. 19.—Miss Nellie McHenry has been seriously burned about the lower limbs during a performance at Krug's theater. Her turn was to rescue a schoolmaster from a burning schoolhouse. In dropping through the roof her skirts caught fire, and a real rescue followed by the leading man. The actress was carried to the wings and the flames were extinguished, but not until she had been badly burned.

**Charged With Rifling Mail Boxes.**  
Chicago, Nov. 19.—On the charge of rifling United States mail boxes and forging a United States money order, John Blair, thirty-five years old, was arrested at a Clark street hotel. He was taken to Buffalo, where he is said to have operated.

**Rio Tinto Strike Ended.**  
Huelva, Spain, Nov. 19.—The strike at the Rio Tinto mines is ended, and the men have resumed work.

## OVERCOATS.

An Overcoat in time, saves nine colds!

Our Overcoat for boys—the kind you like to see them wear, the kind they like to wear, wherever they are and whatever they are to do.

\$2.50 to \$15.00.

Every boy that has entered the competition for a sweater is requested to bring in his card as they will be given out at once.

**Rogers & Grady Co.,**

TOP TO TOE OUTFITTERS.

Quinlen Building, - Barre, Vermont.

## ABOUT THE STATE.

Items of Interest Gleaned From Our Exchanges.

Ex-Gov. Samuel E. Pingree of Hartford, continues to improve in health from his recent severe illness.

A cablegram received from ex-Gov. C. S. Page of Hyde Park, contained the news that he would sail for home on the Kronprinz Wilhelm, leaving Boston November 17.

With the snow storm of the past 24 hours the Otter Creek is rising and is higher today than at any time for the past two months. Considerable snow has fallen in the mountain towns to the east.

Dr. George Stephens of White River Junction is one of the Vermont veterinarians designated by the state boards of Massachusetts and New Hampshire to test in this locality cattle for tuberculosis imported from, or on their way to those states.

The rain and snow this week brings joy to the farmers' hearts as it means more water in the springs and wells this winter. At Thetford there has been only seven inches of rain this year, and at Newport some farmers are carrying water four miles for their cattle. These cases could probably be multiplied in many towns in the state. Lake Memphremagog is six feet lower than ever known before and the big steamer "Lady of the Lake" cannot dock at her wharf, but is anchored in a deeper portion of the lake.

A. L. Bailey of St. Johnsbury has just been granted two more patents for his hose coupler and fastener which is patented in Canada and involves an entirely new principle. It can be used on any thickness of hose and was the result of experiments made at the suggestion of the Montreal fire department who have recently adopted thick rubber hose for their new engines. Mr. Bailey is now in correspondence with the Montreal officials over the adoption of this contrivance. The other patent is on an automatic coupler for air brakes and has just been patented in the United States. Mr. Bailey has two very valuable patents in these couplers and expert railroad men and firemen have predicted a wide use for his inventions.

## JINGLES AND JESTS.

Verified.

Myrtilla in her evening gown  
Is proud indeed to show  
A pair of shoulders most superb  
And white as driven snow.  
I know the simile is true,  
For when I gazed so bold  
As to confess my love I found  
The shoulder icy cold.  
—New York Times.

How He Acted.

"How did he act when he proposed?" asked Miss Paraffine.  
"Finest acting I ever saw!" exclaimed Miss Kolkash. "For a moment I thought he had forgotten about my money and really loved me."—Indianapolis Sun.

His Occupation.

"He never works, does he?"  
"Oh, yes; he works any one he can for anything he can."—Chicago Post.

The Unattainable.

Now, what is human ingenuity?  
A far, we contemplate it.  
It's what some other fellow has  
Who can't appreciate it.  
—Newark News.

Nothing Else There.

Cholly—'I know, Miss Betty, I never drink wine because every time I do so I find it goes straight to my head. Isn't it queer?"

Miss Betty—Well, I suppose it wants to get where it won't be crowded.

## DEFENDS THE PRESIDENT

Grosvenor Declares His Panama Policy Unassailable.

### DEBATE ON CUBAN BILL.

Oklahoma Statehood Measure Introduced in the House—Senate Holds Brief Session and Receives Mexican War Petition.

Washington, Nov. 19.—The house resumed consideration of the Cuban bill, Mr. Grosvenor (O.) opening the debate. He prefaced his remarks by saying that while the debate had taken a wide range he regretted that there had been no discussion on the other side of the house of the Panama canal question, and in this connection he said the position of the administration was unassailable and would redound to the glory of the American people.

Mr. Grosvenor said he would not permit his vote on the Cuban bill to be challenged as affecting his attitude on the dominant question of protection to American industries. Speaking of tariff revision, he said the Republicans would revise the schedules when they got ready to do so in their own way without any aid from the opposite side of the house and that the revision would be with special reference to the upbuilding of American industries without disturbing present conditions. He observed that nothing would be more destructive to have the Democrats come into power, but that was an impossibility for the next two years. Replying to the remarks of Mr. Swanson (Va.), he said there need be no fear of retaliation from a country which could not live ninety days without purchasing food supplies from the outside.

Grosvenor Attacks Cleveland.

Answering a statement made by Mr. Clark (Mo.) as to conditions existing when Mr. Cleveland went in as president, Mr. Grosvenor said: "Immediately upon the election of Cleveland there was practically a suppression of the income of the revenues of the government into the treasury of the United States. It was natural; it was inevitable. It would happen again if somebody other than Roosevelt should be elected president next year."

Delegate McGuire of Oklahoma introduced a bill in the house granting statehood to Oklahoma.

The session of the senate began with the presentation of a petition by Mr. Gallinger from the "Dames of 1848" for the increase to \$50 per month of all pensions granted on account of the Mexican war. He said the pension committee would give due consideration to the petition, but called attention to the fact that all survivors of the Mexican war now receive pensions of \$12.

On motion of Mr. Spooner the senate ordered printed additional copies of the treaty between the United States and New Granada which was made in 1840 and proclaimed in 1848.

The senate then adjourned.

A Shipload of Celebrities.

San Francisco, Nov. 19.—Prominent among the saloon passengers sailing on the mail steamer Korea for the orient are Mrs. K. Takahira, wife of the Japanese minister at Washington, en route to Japan on a visit; Major General and Mrs. Arthur MacArthur, accompanied by Colonel Parker West, for Honolulu. Collector of Customs E. R. Stackable of Honolulu, returning home; Mrs. S. Las B. Terry, wife of Admiral Terry, for Honolulu, with her son and daughter, to join her husband; Dean C. Worcester of the Philippine commission, with his family; for Manila; Lieutenant Commander York Neal of the navy, with wife and daughter, for Yokohama.

Skinner Feted in Jibouti.

Jibouti, French Somaliland, Nov. 19.—The United States gunboat Machias on her arrival here with the United States Abyssinian expedition, headed by Consul General Skinner of Marseilles, immediately landed the thirty persons composing the expedition. They will leave here by rail for the capital of Abyssinia, Addis Ababa. The governor will have a dinner and reception in honor of the Americans. The French authorities here cordially greeted the members of the expedition. The stars and stripes was flown from the government house and from many buildings in the city.

Kings Shoot Pheasants.

London, Nov. 19.—King Victor Emmanuel and King Edward spent the morning shooting pheasants in the Great park at Windsor. Queen Helena and Queen Alexandra visited Queen Victoria's tomb at Frogmore, on which Queen Helena deposited a wreath. There were 150 guests at the state banquet in St. George's hall, Windsor castle. Only two toasts were proposed, King Edward and King Victor Emmanuel toasting each other.

Mrs. Monroe Reburied.

Richmond, Va., Nov. 19.—The remains of the wife and daughter of President Monroe arrived here and were reinterred in Hollywood cemetery, where rest the remains of Monroe. The services were simple and impressive and were attended by representatives of various societies.

Diphtheria Epidemic in Suffern, N. Y.

Nyack, N. Y., Nov. 19.—In the village of Suffern, Rockland county, diphtheria is epidemic. Twenty-one cases have already been reported, and the board of education ordered the schools closed. A prominent teacher is one of the victims of the disease.

Successors to

M. W. Scribner.

Tomas Block, - - - North Main St. Books, Care of Times Office.

**An advertisement in the Times will bring sure results.**

## Equal Distribution of Space!

**Now Listen to This!**

A perfect Shoe should contain not a single particle of space more than necessary, otherwise the Shoe becomes large and ungainly. The **Dorothy Dodd Shoe** leaves more space for the foot than any other Shoe we know of, yet the Shoe itself is absolutely smaller than the ordinary Shoe. That is because it equally distributes space.

... THINK ABOUT IT ...

**BADGER, McLEAN & CO.,**
